

## NEIGHBORHOOD TRAFFIC MANAGEMENT PROGRAM

# Traffic Survey

### Dear Resident:

The City of Pasadena's Department of Transportation is initiating a Neighborhood Traffic Management Program (NTMP) in your neighborhood. The Neighborhood Traffic Management Program is a comprehensive process for managing traffic volume, travel speeds, and traffic-related noise on local streets.

### The goals of the program are to:

- Protect neighborhoods from traffic intrusion through traffic control measures.
- Enhance the quality of life by creating safe and attractive streets.
- Achieve transportation programs desired and supported by the community.
- Improve the safety and convenience for motorists, pedestrians, and bicyclists.

The first phase of the NTMP process is to identify your specific traffic related concerns and explore potential solutions. Results of the survey and potential solutions will be presented to you at a neighborhood meeting or through future correspondence.

Please complete and return the postage paid survey located on the back of this brochure by March 5, 2010 or help us save money by e-mailing your responses directly to [ntmp@cityofpasadena.net](mailto:ntmp@cityofpasadena.net).

Should you need additional information regarding this survey or the Neighborhood Traffic Management Program, please contact Amanda Ta-Chavez, Associate Transportation Engineer at (626) 744-7224 or [ntmp@cityofpasadena.net](mailto:ntmp@cityofpasadena.net)

**Thank you for your participation in this process.**
